

Counterparts/THDNA

Coming Soon!

A new project is planned for the Counterparts website.

A program to link Member photographs with the Advisor's database is being discussed between Jim Alkek and Patrick Gillis. Over the years Patrick who has collected thousands of photographs that were taken in Vietnam from many veterans including Counterparts members.

Many of the photographs include the names of teammates as well as the Counterparts member.

It appears that it is feasible to attach each photograph folder to, not only the member who is listed in the Counterparts Advisors database, but also attach specific photographs to the teammates who are also listed in the database.

Currently the only attached links to a listed teammates name are through the Virtual Vietnam Wall for KIA advisors.

The expanded attachments of photographs will be a huge improvement in that it will "put faces to the names" of the advisors.

In addition this will also make the photographs searchable by linking the photographs to the Advisory Teams.

Hopefully it will also add a few more names to the database.

Do you have photographs that have not previously been copied to Patrick? Please contact him if you would like to include them in this project.

Finally note that all photographs are copied to The Vietnam Center and Sam Johnson Vietnam Archive, Texas Tech University to document the Advisory efforts in Vietnam.

If you have any questions or comments about this project, please contact JimAlkek@yahoo.com

Best regards,

Jim
